MLS® Listing – Home with an unconventional layout or features

When is a basement not a basement? When it's a light-filled second home that's perfect for family, teens, or a rental opportunity. This updated home in southeast London is like buying two homes in one. No one would blame you for being content with the main level by itself: 4 good sized bedrooms, two 3 pc baths (one with Jack-&-Jill access), an excellent updated kitchen with newer appliances, hardwood, laminate, and tile flooring throughout, and a family room plus dining area with access to a large terrace. Look, I know you want to buy it already, but I get paid to write the whole thing: Downstairs offers another full kitchen, 2 beds, a 4 pc bath with jetted tub, living and family rooms with fireplaces, and walk-out access to a huge circular drive, plus storage and a laundry room. The backyard is... Massive, perfect for entertaining and letting kids and pets stretch their legs on warm summer days, all perfectly situated close to shopping and the 401. Whew. NOW you can go buy it.
